

Practitioner's Docket No.: 2000P04015

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

| | | |
|----------------|--|-----------------------|
| Applic. No. : | 09/890,098 | Confirmation No. 5935 |
| Inventor : | Manfred Meinherz, et al. | |
| Filed : | July 27, 2001 | |
| Title : | Multiphase Encapsulated High-Voltage Switchgear for Outdoor Uses | |
| TC/A.U. : | 2832 | |
| Examiner : | Marina Fishman | |
| Customer No. : | 24131 | |

DECLARATION IN SUPPORT OF PETITION UNDER 37 CFR 1.137(a)

I, PEGGY LUTHER, hereby state that:

- I am the docket administrator at Morrison & Foerster LLP and I am in charge of receiving Patent Office mail, logging the same into counsel's docketing system, and keeping all related file and mail logs;
- had an Office action, dated October 8, 2002 been received in the above-identified application, it would have been entered in the docket system for January 8, 2003 and on the file jacket;
- I have personally reviewed the file jacket, the daily docket sheets, and the computer records pertaining to the above-identified application. There is no entry to be found which would indicate that an Office action dated October 8, 2002 was ever received by counsel. A corresponding entry would appear on the docket sheets for January 8, 2003 and on the file jacket. Morrison & Foerster LLP has very stringent procedures which assure that such entries are diligently and responsibly made and the firm's entire docket system is carefully crafted with checks and balances to assure that omissions of this type cannot occur.
- I have concluded from my review that no Office action was received from the USPTO with a mail date of October 8, 2002.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
